## “paintings on a crab”

by

Eric Roberge

original painting on a crab shell

I am Eric Roberge; originally from France but I've been living in Annapolis since 1957. Many of my earliest inspirations came from visiting museums in Paris, France, with my grandmother.

A few years ago, I started working with reclaimed objects—wood, crab and oyster shells, bones, rocks and feathers. Prior to that I'd mainly drawn on paper and painted on canvas, wood and cardboard. I believe my favorite pieces are the ones that have been able to express the emotion, memory or thought I was feeling in the creative process.

# **BUSINESS CONSULTING**

2 Hours of Business Strategy  
and a Business Analysis/Assessment

## **Meredith Bennett**

Founder & Principal Consultant  
Deliberate Shift, LLC

The Deliberate Shift Consulting Group, founded by principal consultant Meredith Bennett, was created to provide small and medium-sized businesses with a knowledgeable, enthusiastic, solutions-driven partner. Having worked for years in management alongside entrepreneurs and executives, she found her calling in the strategic resolution of business, marketing, and customer service challenges. In order to gain additional understanding of the global business landscape and the needs of entrepreneurs, she also completed her MBA with a focus on entrepreneurship in 2010.

Where are the biggest challenges in your business? We will begin our time together by doing a business assessment of the areas in your business that need the most assistance. We will then hold our first one hour consultation call to discuss my business assessment on the challenges you are facing and what I can do to help. We'll then come up with a strategy for how to get you on the right track. We'll finish the process with either one hour-long consultation call or two half-hour consultation calls, depending on what works best for your business. Whether your needs are related to overall business growth, sales, marketing, branding, customer engagement or loyalty, I'm ready and excited to help make big things happen for you!

## **408 Maple Top (Crab Blue)**

### **Signed by Paul Reed Smith**

PRS is proud to offer a new voice with the 408 Maple Top and 408 Standard. These inspiring new instruments bring the versatility and voicing of the Private Stock Signature and the Signature Limited Edition to PRS's Core line.

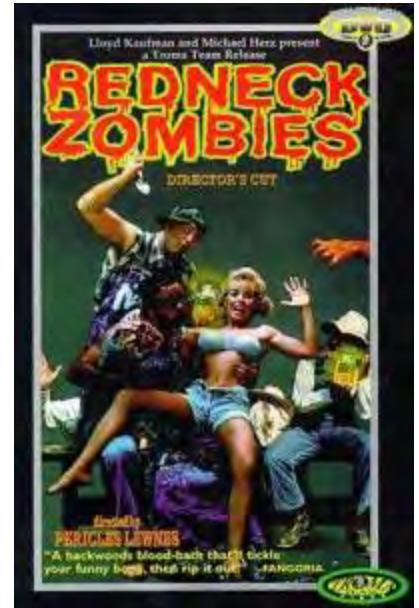

PRS 408 pickups were designed to extend the guitar's tonal spectrum by narrowing the field of the bass pickup to increase its focus and widening the field of the treble pickup to increase its sound field (hence their asymmetric appearance). This pickup configuration (comprised of four coils and offering eight sounds) stems back to Paul's experimentation on the Sorcerer's Apprentice guitars in the early 1980's. Thanks to the simple but versatile switching system featuring mini-toggle switches that provide numerous combinations of humbucking and singlecoil tones, the 408 Maple Top provides stunning articulation and musical clarity.

# TELARIA RIVER INCURSION OF CHAOS

Xlibris Hardcover

## Jeff Knowles

Author/ Photographer

Those who live there usually call their realm "Talis" because of the importance of talisman items they create to help channel Srin powers. Central to much of their world is the valley of Telaria River. Some of Talis' most powerful tribes, especially of the Srinavia winged races, evolved along the Telaria or within a day or two's flying distance. Even the Meadow, Sea Island, and Fire Mountain Sylfaen tribes who migrated out of the valley tend to visit the Telaria often, and consider themselves intimately connected to it.

The Sylmanni and other faerie races are still trying to piece together exactly how and why the Curse of Chaos was created. Perhaps that full story will never be known. But those who survived it will never forget the Curse's fury as it relentlessly fed on itself and spread into Talis. Nor will they forget the story of courage found among those who refused to give up hope.
